

(Junior) Fullstack Developer (Node.js/React)

Company: **CHECK24** Rental car

Location: Augsburg

About this job

The CHECK24 car rental comparison service is **the market leader and a test winner** at Stiftung Warentest. Since 2016, we've been helping customers find the right rental car at the best price from our Augsburg office and are a competent contact for all questions and problems.

Our IT teams work daily to make the comparison process even better and clearer for our customers, as well as to make contact with our service easier and faster. Kick-start your career with the perfect blend of an agile start-up and an established market leader! Experience the dynamics of e-commerce with agile processes, short decision-making paths, and a steep development curve in a great team. To make our car rental comparison even more customer-friendly and efficient, we are looking for you as a **(Junior) Full-Stack Developer (m/f/d) Node.js/React** at CHECK24 Vergleichsportal Mietwagen GmbH.

What you bring with you

- **Education:** Completed training as an IT specialist (m/f/d) or comparable training in IT or a degree in computer science
- **Practical experience:** Initial professional experience in front-end or back-end development and an understanding of the concepts of object-oriented programming
- **Tech Stack:** Knowledge of JavaScript/TypeScript and interest in modern web development with a JavaScript framework (e.g. React, Angular, Vue.js or similar) as well as with Node.js and corresponding frameworks (e.g. Fastify, Express, Koa), as well as basic knowledge of using the Linux shell
- **Digital Mindset:** Passion and interest in web development and a feel for UI/UX and actively explore new technologies such as Generative AI to make your work more efficient
- **Drive and Spirit:** Strong quality awareness, hands-on mentality, excellent communication skills and teamwork skills, as well as a high level of motivation
- **Language skills:** Fluent German and good English skills

Your tasks include

- **Working in a team:** You'll work on exciting topics related to our multilingual car rental comparison – from landing pages and booking processes to self-services in our customer area after booking. In our planned development of a Node.js-based middleware, you'll work closely with the front-end and back-end teams to implement logic and REST APIs between the systems.
- **Take responsibility:** You will be responsible for the technical implementation of product improvements and further develop both the JavaScript backend and our web frontends for desktop, tablet, and mobile devices
- **Optimize the tech stack:** You will help to further develop the current state-of-the-art tech stack of our entire application
- **Innovation through AI:** You actively engage with generative AI (e.g. Copilot, Cursor AI or JetBrains Junie) – both for the automation of development tasks and the development of new features as well as for the quick and understandable explanation of code

- **Ensure coordination and communication:** You implement innovative features in close cooperation with our product managers and contribute your own ideas

What we offer you

- **It's easy to get to us:** Centrally located right next to Augsburg Central Station in the HELIO (with shopping, fitness, and cinema right on site). Our bright and modern office offers space for creativity, outdoor work, and fun with foosball or table tennis. Thanks to a free Germany ticket, subsidized bicycle/eBike leasing, and free bicycle parking, you can get to the office in a climate-neutral and affordable way.
- **With us, you are flexible:** Flexible working hours, more than 30 days of vacation for excellent performance and the option of additional unpaid vacation, sabbaticals and workation abroad
- **Personal exchange and team spirit will help you progress:** We cultivate our office culture with personal exchange, close collaboration, and great team spirit. On Fridays, there's the option of working from home (mobile working). We're much more than just colleagues—experience our CHECKito spirit for yourself.
- **We value your commitment:** Permanent contracts and attractive compensation with annual bonuses for outstanding achievements. Vouchers for numerous CHECK24 products, subsidized company pension plans, and many other benefits (e.g., EGYM Wellpass, back school, free sports programs, team budgets for events) are also available.
- **Your ideas are important to us and will be implemented quickly:** Independent and agile work, including the contribution of your own ideas. Short decision-making processes and release cycles are a given for us.
- **We'll help you advance:** Individual career development through internal and external training, regular feedback sessions, and personal coaching, as well as a personal training budget. Thanks to our strong and sustainable growth, we offer career prospects for specialists and managers.
- **We'll equip you:** You'll receive a powerful laptop, two additional screens, or, if you prefer, a curved monitor on your first day of work. Would you like customized equipment like an ergonomic mouse, noise-cancelling headphones, or a height-adjustable desk? No problem!
- **You'll feel right at home with us:** Free chilled drinks are available in every office. Coffee, hot chocolate, muesli, and fresh fruit are regional and organic. Free lunch is served five times a week for the entire team.
- **We're a great team outside of work, too:** We enjoy a friendly and collegial atmosphere. We celebrate our successes together at beer gardens and Plärrer beer festivals, office parties, and legendary summer and Christmas celebrations. We also offer numerous team events and group sports sessions, such as soccer, bouldering, or yoga.
