

Application for IT Working Student Position at GOT BAG

Dear Hiring Manager,

I am excited about the opportunity to apply for the position at GOT BAG. As a Master of Science student in Applied Computer Science at SRH Hochschule Heidelberg University of Applied Sciences, specializing in Business Computing with a focus on SAP ABAP and HANA, I am eager to contribute to your team. I am particularly interested in this role as it offers an excellent platform to expand my knowledge and experience in software development.

My academic and professional background in web development and IT has equipped me with a diverse set of skills. During my internship as a Frontend Developer, I designed and maintained a website using HTML, CSS, JavaScript, and Bootstrap, which honed my problem-solving abilities and my capacity to work independently in an inclusive environment. Additionally, I developed websites for dairy products and a gym management system during internships with Education4ol and LetsGrowMore, further refining my expertise in HTML, CSS, and React.JS.

Beyond web development, I have pursued several courses in Artificial Intelligence, Machine Learning, Google Analytics, Microsoft Azure, and full-stack Python development. I also completed workshops in WordPress, React.JS, and R Programming, enhancing my skills in user interface design and complex data analysis.

During my studies, I have undertaken various academic projects utilizing technologies such as Java, Python, React, Node.js, and Google Cloud. These experiences have fostered my ability to work efficiently in Agile teams and take ownership of tasks.

Additionally, my business administration background complements my technical skills, enabling me to contribute meaningfully to both the development and business aspects of projects. I am confident that my strong technical skills, adaptability, and enthusiasm for learning new technologies would allow me to contribute positively to your team. I look forward to the opportunity to discuss my qualifications further

Sincerely,

Ketan Darekar
