Application for IT Support Position at CLIFFORD CHANCE

Dear Hiring Manager,

I am enthusiastic about the opportunity to join your dynamic IT team at Clifford Chance. Currently, I am pursuing a Master of Science degree in Applied Computer Science from SRH Hochschule Heidelberg, with a specialization in Business Computing, focusing on SAP ABAP and HANA. This role excites me as it aligns with my goal to gain valuable knowledge and hands-on experience in software development.

My clear understanding of coding, particularly in Python, JavaScript, HTML, CSS, and object-oriented programming in Java, makes me confident in my ability to contribute effectively to your team. Additionally, I possess strong database concepts, which further support my suitability for this position.

During my internships, I gained practical experience in web development. At Education4ol, I developed a website for dairy products, learning to approach web development from a professional standpoint. Later, I worked with LetsGrowMore, where I developed a gym management system and registration form, deepening my expertise in HTML, CSS, and React.js. I have also supplemented my learning with courses in Artificial Intelligence, Machine Learning, Google Analytics, and Microsoft Azure.

I have completed various workshops on technologies such as WordPress, React.js, and R Programming, which helped me enhance my skills in creating user interfaces and analyzing complex data. Throughout my academic journey, I've worked on multiple projects in Java, Spring, Python, React, and Google Cloud. I am also eager to expand my knowledge in DevOps, and I am comfortable working both independently and in Agile teams.

Fluent in English and German, I bring strong communication, problem-solving, and design thinking skills. I am confident that I could make a positive contribution to your team.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,

Ketan Darekar
