Application for Software Development Position at msg

Dear Hiring Manager,

I am excited about the opportunity to join msg, a company that values diversity and sustainable business practices. My experience in software development, combined with my academic background, aligns well with the requirements of the role. During my internship, I developed a Dairy Products website using Java, which allowed me to apply object-oriented programming concepts and hone my technical skills. I believe my flexibility, commitment to learning new technologies, and ability to develop innovative software solutions will enable me to contribute effectively to your dynamic team and the complex projects you undertake.

Currently, I am pursuing a Master of Science degree in Applied Computer Science at SRH Hochschule Heidelberg, specializing in Business Computing, with a focus on SAP ABAP and HANA. My strong foundation in Python, JavaScript, HTML, CSS, and Java, along with my object-oriented programming and database skills, makes me confident that I am a strong candidate for this role. During my internships, I gained valuable real-world experience in web development. I developed a website for dairy products during my internship at Education4ol and later created a gym management system using React.JS at LetsGrowMore. These experiences solidified my expertise in various programming languages and frameworks.

In addition to my formal education, I have pursued multiple courses in Artificial Intelligence, Machine Learning, Google Analytics, Microsoft Azure, and full-stack Python development. I have completed workshops on WordPress, React JS, and R Programming, enhancing my skills in both UI design and data analysis. Throughout my academic journey, I've worked on numerous projects using technologies such as Java, Spring, Angular, and Node.js, while gaining hands-on experience with agile methodologies.

Fluent in English, with intermediate German skills, I am a team player who values self-organization and problem-solving. I am confident that my knowledge, experience, and positive attitude will allow me to make a meaningful contribution to your team.

Sincerely,

Ketan Darekar
