Application for IT Intern Position at Talentplatz

Dear Hiring Manager,

I am excited to apply for the IT Specialist Intern position at Talentplatz. Currently, I am pursuing a Master of Science degree in Applied Computer Science at SRH Hochschule Heidelberg, specializing in Business Computing with a focus on SAP ABAP and HANA. This position offers an opportunity to deepen my software development knowledge, and I believe my background aligns well with your requirements.

I have clear concepts and clean coding skills in Python, JavaScript, HTML, CSS, and Object-Oriented Programming in Java, making me confident that I can contribute effectively to your team. During my studies, I have completed academic projects using technologies like Java, Spring, React, Angular, Node.js, and Google Cloud. My internships at Education4ol, where I developed a website for dairy products, and LetsGrowMore, where I created a gym management system, solidified my expertise in web development and programming languages like HTML, CSS, and React.js.

Additionally, I have pursued courses in Artificial Intelligence, Machine Learning, Google Analytics, and Microsoft Azure to further enhance my technical skills. I am also familiar with Agile methodologies and enjoy working in team environments where I can take responsibility for individual tasks. With business-fluent English, intermediate German, and a strong foundation in design thinking, I am eager to apply my knowledge and contribute to your team.

I am confident that my relevant skills and passion for learning new technologies will allow me to make a positive impact as part of your team. I would welcome the opportunity to discuss my qualifications further in a personal meeting.

Thank you for considering my application.

Sincerely,

Ketan Darekar
